FIRST INTERVIEW.

The Hawaiian Commissioners Meet Secretary Foster.

TWO SHORT CONFERENCES HELD.

The Credentials of the Commissioners Presented—An Extended Conference Arranged for Next Tuesday Morning. The Visitors Intimate That They Feel Very Much Encouraged—Secretary Foster Makes Public the Official Correspondence with Minister Stevens—The Landing of Marines at Honolulu.

WASHINGTON, Feb. 6.—The first interview between Secretary Foster and the Hawaiian annexation commissioners was held in the diplomatic parlor of the state department Saturday between 10 and 11 o'clock, and lasted half an hour. There were present Secretary Foster and Solicitor Patridge, representing the United States, and Messrs. Thurston, Wilder, Castle, Marsden and Carter, the Hawaiian commissioners; Mr. Kinney, of Salt Lake City, who is present with them as unofficial adviser, and Dr. Mott-Smith, the Hawaiian minister, the latter of whom made the introductions.

Mr. Thurston, on behalf of his associates, presented their credentials from President Dole, of the provisional government, and supplemented them with a brief statement of the events of the islands, which were the cause of their visit.

Secretary Foster responded in a few words of welcome, stating that the reason for the errand was well known to the people of the United States. After the exchange of social greetings, in the course of which the secretary expressed the regret that he was unable to receive them at his own house, which had been closed in expectation of his departure for Europe in a few days, the interview closed with an engagement to meet again at 3 o'clock in the afternoon at the same place.

The Hawaiian commissioners returned at once to their hotel, where they discussed the question of making a statement to the people of the United States upon the subject of their mission to this country.

Mr. Thurston was asked whether the reception by Secretary Foster had been satisfactory, and he replied that it had been quite so. Of the details, however, he could not speak, as he had been requested by Secretary Foster, pending negotiations, to make no statements regarding the progress thereof.

Other members of the commission united with Mr. Thurston in expressing much satisfaction over the manner of their reception. Mr. Castle said he had found Secretary Foster to be an exceedingly affable gentleman, and he anticipated very pleasant relations between him and the commissioners during their stay. They have been cordially received by the representatives of the United States government, he said, and this beginning, he believed, augured a satisfactory completion of their mission.

After the interview, Secretary Foster said he had nothing new to communicate, and owing to the press of other business he was unable to see newspaper men.

Second Conference.

At 3 o'clock in the afternoon another conference was held and was even shorter than the one in the morning and quite as unproductive in results. There was some informal talk over the annexation proposition, and this was concluded by an agreement that Secretary Foster should again meet the commissioners on Tuesday morning for an extended conference.

The commissioners, while they are saying very little on the subject of the ultimate accomplishment of their object, intimate that they feel very much encouraged.

Full Power to Act.

The commissioners say they have full power to negotiate a treaty of annexation with the United States, and, although they have not been officially recognized by this government, yet they are encouraged to believe, from the manner in which they have been treated, that formal recognition will soon follow.

Have Not Seen the President.

No arrangement has been made for their reception by President Harrison, but this will probably take place in a few days, as the recognition of the new government by this country removes any hesitation the president might feel in giving the commissioners a formal audience.

Correspondence with Minister Stevens.

Secretary Foster has made public the full text of the dispatch announcing the Hawaiian revolution, received by him from Minister Stevens on the 28th of January by telegraph from San Francisco and the answer he sent to the minister.

The following is the dispatch from Minister Stevens regarding the revolution in Hawaii.

UNITED STATES LEGATION,

HONOLULU, Jan. 18.

And telegraphed from San Francisco Jan. 28.

Hon. John W. Foster, Washington: Events in Hawaii in the past few days have moved rapidly. An entire overthrow of the Hawaiian monarchy and the establishment of a provisional government in the interests of the whole people of the islands without the sacrifice of a single life. The new government is in full possession of the islands, and was promptly recognized by all the diplomatic representatives. The four men of whom it is composed are of high character, one of whom resigned his position as one of the supreme judges to assume the place. Full dispatches by

the mail leaving Honolulu today by special steamer.

STEVENS, United States Minister.

Secretary John W. Foster sent the following reply:

WASHINGTON, Jan. 28, 1893.

John L. Stevens, United States Minister, Honolulu, care Commandant Mare Island and Navy Yard, San Francisco:

Your dispatch, telegraphed from San Francisco, announcing revolution and the establishment of a provisional government was received today. Your course in recognizing an unopposed de facto government appears to have been discreet and in accordance with the facts. The rule of this government has uniformly been to recognize and enter into relation with any actual government in full possession of effective power with the assent of the people. You will continue to recognize the new government under such conditions. It is trusted that the change, besides conducing to the tranquility and welfare of the Hawaiian islands, will tend to draw closer the intimate ties of amity and common interests which so conspicuously and necessarily link them to the United States. You will keep in constant communication with the commander of the United States naval force at Honolulu, with a view to acting, if need be, for the protection of the interests and property of American citizens and aiding in the preservation of good order under the changed condition reported.

JOHN W. FOSTER.

Landing of Marines Defended.

Secretary Foster also gave out for publication a statement defending the landing of United States marines at Honolulu, and showing that the landing of foreign troops on the Hawaiian islands in connection with civil disturbances has taken place on several occasions.

Has Great Britain Consented?

The official announcement contained in Minister Stevens' dispatch to Secretary Foster that the representatives of all foreign governments had recognized the provisional government at Hawaii was evidently as much of a surprise to the commissioners now here as it was to the general public, as it may properly be construed to include the representative of Great Britain. The commissioners say they left Honolulu at 9:15 on the morning of the day of their departure, and up to fifteen minutes before that time they had not heard of the action of Great Britain's representative, although they had been in communication with the executive council before their departure. They say it is probable that the British minister had met the United States minister on the morning in question and had communicated to him verbally the information that he had just before notified the officials of the new government of his recognition, or that he intended doing so, which gave to Mr. Stevens the grounds for the statement made in his dispatch. This is the only way in which the commissioners can account for the matter.

The Commissioners' Sunday.

The members of the Hawaiian annexation commission spent a quiet Sunday, passing most of the time in their rooms at their hotel. Mr. Carter, who was a resident of Washington for some time while his father was Hawaiian minister to this country, found time to renew some of his acquaintances of that period, but the other gentlemen saw no one except several callers at the hotel. Among the visitors during the day were Commander Goodrich, of the United States navy, and Mr. J. B. Montgomery, of Portland, Or., the latter of whom expressed to the commissioners his belief that the entire Pacific coast was united in favor of the annexation of the islands to the United States.

No Statement to the Public.

The commissioners do not expect to make any statement to the public regarding their errand until after the completion of their conferences with Secretary Foster. They will be busily engaged during the intervals between these meetings with the secretary in the preparation of the argument that they will advance in support of their application for the annexation of the islands by the United States.

Awaiting the Next Steamer.

It is not probable that the conferences between the secretary and the commissioners will be anything more than formal until after the arrival of the next steamer from Hawaii, which is due at San Francisco on the 8th inst., containing further advice as to the situation of affairs upon the islands. The state department expects to receive by that steamer full reports from Minister Stevens of the events in connection with the revolution and of what has occurred since. The commissioners also look for additional instructions from the provisional government regarding their mission to this country. Until those communications have been received it is said that the commissioners will not be presented to President Harrison.

Doings of the Provisional Government.

Speaking of the probable course of events on the islands, Commissioner Carter said yesterday afternoon that the provisional government would not undertake any legislative action pending the negotiations with the United States upon the subject of annexation except that the advisory council, which stands in the stead of a legislative legislature, would probably repeal the lottery bill which the recent legislature passed the day before it was prorogued by the late deposed queen.

Minister Stevens Foresaw It.

As long ago as last November Minister Stevens wrote a letter setting forth the advantages of the Hawaiian islands to the United States and the desirability of their acquisition by this country, in which he said: "The time is near when we must decide who shall hold these islands as a part of their national territory. It is not possible for them to much longer to remain alone. Their people and the United States will soon be compelled by circumstances and events to decide whether the Hawaiian

islands will have unity, liberty and autonomy with the United States or become a colonial possession of foreign power. What Webster, Clayton and Marcy saw forty years ago, and Seward, Fish and Blaine and the administrations they represented, clearly perceived may now well be considered by the American people."

Importance of the Islands.

The entire area of the islands is about 6,000 square miles. In addition to sugar, which is now much the largest product, the soil and climate are admirably adapted to raising rice, bananas, oranges, coffee, grapes and other crops. Well governed and properly developed, they are capable of sustaining a population of 300,000 to 400,000. There are extensive ranches for the raising of sheep and cattle, so as to be capable of supplying steamers and other vessels both in peace and war. The two harbors of Honolulu and Pearl City, about six miles apart, are entered by narrow channels and are closely backed by mountains, so as to be made impregnable defensible at not large expense. Their ultimate possession by the United States is of the utmost importance to American commerce in the Pacific, which promises vast development if wisely cared for and without too much delay.

CLEVELAND'S CABINET.

It is Believed That Only Two Members Have Been Decided Upon.

NEW YORK, Feb. 6.—It is the general impression among politicians that Mr. Cleveland has decided upon only two members of his cabinet. They know that Mr. Carlisle is to be secretary of the treasury and Daniel S. Lamont either secretary of war or secretary of the navy, but they are mystified as to the other men who are to have portfolios. The belief is growing that James C. Carter, of this city, is now the first choice of Mr. Cleveland for secretary of state, and in the event of his appointment, it is said Judge W. Q. Gresham is likely to have his place as attorney in the Behring sea controversy.

There is a good deal of discussion over Judge Gresham, whose appointment to a cabinet office would be received with disfavor by many Democrats. It is hinted that Mr. Cleveland has already offered Judge Gresham an office and that whatever was offered he declined. Henry Villard may be in the cabinet as secretary of the interior, but his appointment would create considerable talk because of his railroad connection.

Ex-Secretary William C. Whitney is no longer spoken of for a cabinet portfolio. Mr. Cleveland would like to have him for secretary of the navy, but if Mr. Whitney accepts anything it will probably be the mission to England or France. General Patrick A. Collins, of Boston, will likely be the New England representative in the cabinet. Politicians continue to flock here from all parts of the country to look after the distribution of patronage.

Congressman William H. Brawley, of South Carolina, who voted against the silver purchase bill, was a welcome visitor. Mr. Brawley, it is said, will be the president's representative in the house on silver legislation. Mr. Cleveland is obliged to look to Senator Hill as an ally in repealing the Sherman act. Among the callers on Mr. Cleveland were W. C. Atwood, colored, of Tennessee. Mr. Atwood was appointed by President Arthur as minister to Hayti and was not removed by President Cleveland. He worked for Mr. Cleveland's election and is again a candidate for the Haytian mission.

Ex-Postmaster General Don M. Dickinson consulted with Mr. Cleveland at his office in the Mills building Saturday, and late in the afternoon joined him on the train for Lakewood. William F. Harrity registered at the Hoffman House in the forenoon, and left there in the evening for Philadelphia. He talked with Mr. Cleveland during the few hours he was in the city. Mr. Harrity is expected at Lakewood this week. Congressman O'Farrell, of Virginia, and R. W. Morse and James Keith, of the same state, all called upon the president-elect. Their conference followed a long one which Mr. Cleveland held with ex-Secretary of the Treasury Charles S. Fairchild and Mr. Dickinson. Mr. Fairchild may be collector of this port.

Mr. Cleveland remained quietly at his cottage all day yesterday. Mr. Cleveland announced yesterday evening that he will remain here all of the coming week in order to dispose of several matters of importance which have been awaiting his attention for some time. He desires that his ordinary mail shall be directed to his office in New York, as it will receive more prompt attention there than here.

The sudden death Sunday morning of Dr. W. C. Stone, the physician and friend of the Cleveland family, was a shock to both Mr. and Mrs. Cleveland.

GHOSTLY LIGHTS.

Sensational Experience of a Kentucky Sleighting Party.

RICHMOND, Ky., Feb. 6.—William O'Connor, who resides at Kirksville, in this county, is very much puzzled and excited over an experience he had with a ghostly fire phenomenon, three miles from this city, recently. He professes to be a skeptic on the subject of spiritualism, and relates a remarkable and interesting story of his late adventure. In company with two young men and two young ladies, Mr. O'Connor left Richmond, on Monday night, Jan. 16, in a sleigh drawn by two fleet horses. They were on their way to a party at Kirksville.

The night was cold, and a light snow was falling, but it was not too dark to see objects twenty-five yards away. When they reached a point about three miles southwest of this city one of the young men saw a brilliant light over on

a hillside, about one hundred yards from the roadside, and called attention of the party to it.

The crowd thought it was the reflection of a lamp burning in a house nearby, but as the latter was 300 yards away and the light on the hillside exceedingly bright, they were unwilling to accept this. They stopped to investigate the strange scene. At this time the light began to slowly circle round, rising a great distance from the ground, then falling to the earth again in large circles.

Mr. O'Connor describes the appearance of the light as electric in brilliancy, and says there was no human near the spot; had there been he would have been visible, as the light was so bright. The curiosity of the young men arose to a high pitch at this time, and two of them alighted and waded through deep snowdrifts, and stood for a quarter of an hour watching the strange phenomenon.

Being chilled, the party resumed their journey. They drove to the farmhouse where the party was to be given, and witnessed the same peculiar spectacle which they had come in contact with an hour before. At the farm gate they again watched the light another quarter of an hour, which continued to approach them, circling as it came.

Mr. O'Connor and companions are unable to fathom the mystery, and others who have witnessed the same sight at or near this spot are likewise puzzled to know what it is.

ANOTHER EL DORADO.

Rich and Extensive Gold Ore Vein Found in Southern California.

DENVER, Feb. 6.—A gold mining discovery of extraordinary importance has just been made in San Bernardino county, Cal., at the instance of Denver capitalists. Messrs. J. N. Blake, of the Continental Oil company; N. T. Jordan, Robert Bailey, W. L. Beardsley, E. A. Nash and W. F. Crosby, who are the principal proprietors and promoters of the Nevada Southern railroad, which is to go through Arizona and southern California, constructed with a view to developing the mining interests of that section of southern California, not long since sent C. F. Wahl, an experienced prospector, to investigate the gold and silver veins of that region.

Mr. Wahl writes from the New York mining district, in San Bernardino county, that he has found on the north side of the New York mountains a big vein fully four feet wide, rich in gold and silver. He traced the vein for over a mile and it was of uniform richness throughout. The claim is situated about five miles between New York and Vanderbilt mines. There is plenty of water and the spot is easy of access. The ore is free milling and assays \$200 a ton.

Mr. Wahl has christened his find the "Wahl lode," after himself, and the gentlemen above named will be associated with him in developing it.

The fact that they control the railroad which traverses that region is an assurance that the new El Dorado, if such it be, will be worked to the utmost. They have already invested over \$1,000,000 in a smelter and reduction work at Needles, an important point on their railroad, have established a national bank there and propose to spend \$500,000 more for mining machinery. Mr. Blake is president and Mr. Jordan vice president of the company, which has been incorporated to develop the new mine.

SILVER BILL.

No Prospects of One Passing the Present Session of Congress.

LAKEWOOD, N. J., Feb. 6.—Congressman W. L. Wilson, of West Virginia, who came from Washington Saturday to consult with Mr. Cleveland, presumably on the prospect of the repeal of the Sherman silver purchase act at this session of congress, spent the evening with Mr. Cleveland and Don M. Dickinson at the Cleveland cottage, and had another long talk with the president-elect yesterday.

Mr. Wilson, when asked yesterday what were the prospects of a silver bill, passing both houses of congress before the end of the present session, said: "The chance of a bill passing the house largely depends upon the committee on rules. They are to report a resolution on Thursday. If the resolution merely calls up the silver bill for discussion nothing will be accomplished, as but twenty-four working days remain and appropriation bills will take considerable of the time, so that the discussion on silver can be prolonged until the end of the session. If the committee reports a rule requiring a final vote on the silver bill on a certain day and the house decides to vote on the measure, I am satisfied that it will pass the house. In the senate, however, there is a sufficient minority against repeal of the Sherman law to absolutely prevent the passage of a bill at this session."

FLOOD IN QUEENSLAND.

Large Loss of Human Life and Great Destruction of Property.

BRISBANE, Feb. 6.—Incessant rains for several days has caused flood throughout Queensland. Part of this city is under water. People are deserting the low-lying districts, as many houses are submerged to the second floor and the water is still rising.

The towns of Bundaberg, Ipswich and Bundamba are suffering most severely and are threatened with total demolition. All domestic animals and cattle have been drowned. A large loss of human life is reported.

A mine near Bundamba was flooded and seven miners were drowned. In Ipswich many houses have collapsed.

Goodna is entirely under water, and the inhabitants have taken refuge on the hills. Hundreds are homeless without shelter and without food.

VICTORIA FAILING.

The Queen of England in Poor Health.

AGE AND CARE TELLING ON HER.

During the Last Two Months Her Eyesight Has Failed in a Marked Degree, and Her Irritability Has Greatly Increased—Preparing for a Trip to the South of Italy—Other Foreign Dispatches.

LONDON, Feb. 6.—Queen Victoria's health is causing her court great uneasiness. The entourage desire to hasten her trip to the south of Italy before March, if possible. Severe weather and attacks of bronchitis have made Osborne house decidedly unpleasant for the good old ruler, but she insists she will not leave there until the date she has herself set for her return to Windsor.

She insists on personally holding a court levee in Buckingham palace next month, although her manifest feebleness ought to deter her. During the last two months her sight has failed in a marked degree, and her irritability has increased so that at times she has made her attendants feel nervous and anxious. She entertained the cabinet ministers last Saturday in a listless manner. True, she has never been much in love with Liberalism, but her apathy was, in this instance, due to physical weakness.

A story is told that she has a craving for cinnamon. She takes the powdered article by the spoonful. The royal lady has retained her love of outdoor exercise, but the weather has deprived her of that for two months, and the effect is said to be very marked. In plain terms, age and care are telling rapidly upon one of the noblest women in Europe, and people who know scarcely believe she will be able to carry out her spring excursion program.

GERMANY AND RUSSIA.

The Czarewitsch's Recent Visit Having Good Effect.

BERLIN, Feb. 6.—Concurrent indications distinctly point to a growth of concord with Russia arising from the recent visit of the czarewitsch to Berlin. Officials at the foreign office, here-state that a commercial convention with Russia is now a certainty.

The czar is credited with instructing General Gourko, the governor of Warsaw, who was recently summoned to St. Petersburg, to suspend the execution of the plans for massing troops along the German frontier. The czarewitsch has sent a telegram to the colonel of the Westphalian hussars, of which regiment the czarewitsch is honorary colonel, saying: "I am filled with sentiments of sincere gratitude towards Emperor William for his gracious attention to me, which I warmly appreciate."

The members of Emperor William's immediate circle make much of these symptoms of renewed amity. Hence rumors are current of a meeting of the czar, Emperor William and Emperor Franz Joseph. Rumor also has it that the czarewitsch will revisit the Berlin court during the coming summer and that a conference is being arranged between the czar and Emperor William.

But notwithstanding all these rumors of pacific intentions, which have certainly reached Russia, the Russian newspapers of pro-French opinions take special occasion now to recur to expressions of hostility to Germany. For instance, The Novosti declares that war is an absolute necessity, and that the monarchs would be powerless to avert it. Germany, it says, is going headlong toward events compared with which the war of 1870 will be child's play.

Trouble Still Threatened.

MADRID, Feb. 6.—The excitement caused among Roman Catholics by the opening of a Protestant church in this city several weeks ago, still threatens trouble. When the Protestants announced four days ago that they would meet yesterday afternoon in a theater opposite the college the police feared a counter demonstration to the Catholic student riot in Barcelona on Jan. 29.

When the Protestants assembled yesterday they found a strong force of police and about one hundred of the civil guard drawn up around the college. During the services a petard exploded a few yards from the theater. Three policemen and a civilian were wounded. The services were cut short and the congregation hurried in a panic from the theater. Nothing has been ascertained as to the identity of the person who exploded the petard.

Thirty-Two Couples Marry.

BUCHAREST, Feb. 6.—In accordance with the ancient Roumanian custom the weddings of thirty-two peasant couples, representing the thirty-two districts of Roumania, were celebrated yesterday in the presence of Prince Ferdinand and his bride. After the marriage ceremonies the couple drove in thirty-two carriages, decorated with flowers to the royal palace, where a wedding dinner was served. King Charles gave a purse filled with gold to every couple, and Crown Prince Ferdinand clicked glasses with every bridegroom before drinking with him.

Battle with Hottentots.

LISBON, Feb. 6.—A dispatch from St. Thomas says that the Hottentots recently attacked Mossamedes, in lower Guinea. The Portuguese drove them back after a stubborn fight, in which the Hottentots lost their chief and fifty men.

Dynamiters to Be Arrested.

DUBLIN, Feb. 6.—Several arrests in connection with the dynamite outrage in Exchange court are said to be imminent.

WEATHER INDICATIONS.

Tennessee and Kentucky, showers, warm, southerly winds, followed by much colder, northerly winds in western portion Monday night.

KANSAS Republicans have about concluded to throw up the sponge in the Senatorial contest. They were knocked out several days ago but are just finding it out.

EVIDENTLY the Cincinnati Tribune doesn't know that Texas has one of the finest public school systems in the country. The whole State should not be judged by one little town.

"THE moon has turned over a new leaf. It will not get full this month," says the Cincinnati Tribune. Well, it was full twice last month. About time it was turning over a new leaf.

THE Miner election law, under which five Democratic Presidential electors were chosen at the recent election in Michigan, has been repealed, by a Republican Legislature of course. It was constitutional all the same. The Supreme Court settled that.

SOME Republicans think President Harrison has concluded to let "the tail go with the hide," and explain his appointment of a Democrat for Associate Justice in this way. The Anti-Harrison Republicans are very much riled over his action, and one can't blame them.

A SPECIAL from Ashland, O., states that the terrible railroad wreck near there last Thursday was caused by the crew of one of the trains going to sleep. But these poor employes should not be blamed. They had been on actual duty for thirty-six hours. Stringent laws are needed to punish railroad companies for working men in this way.

THE BULLETIN is opposed to much tinkering with the new ballot law, but some change is absolutely necessary in the sections applying to municipal elections. Payment of the poll tax is necessary to entitle one to vote for city officers of Maysville. The election will hereafter be held at the same time as the county and State election, and this poll tax provision can not be enforced unless there are separate ballot boxes, separate poll books, etc.

CHARITY, that mantle which is supposed to cover a multitude of omissions, commissions and the like, and which, it is said, should begin at home, seems to be devoted exclusively to the "poor heathen" in foreign missions by Maysville christians. According to the Ledger, thousands of dollars are sent to Asia and Africa, but the poor of that city go neglected.—Louisville Times.

The concluding statement in the above is far from the truth. The poor have been better cared for in Maysville this winter, we believe, than in any other city we know of. Relief has been given to all who were known to be in destitute condition, and the committee is still prepared to extend aid to the needy who are deserving.

The Ledger and the Times both mistake the object of missions. The money sent China, India, Japan and other mission fields is not to relieve the poor, but to carry the gospel of Jesus Christ to people who have never heard of the Savior. "Go ye into all the world and preach the gospel to every creature."

But editors who are rarely ever seen inside of a church are not supposed to know much about missions.

The Legislature.

The bill regulating the operation of county and town co-operative fire insurance companies was passed by the House Saturday. This is the same measure heretofore improperly passed by the House.

The Senate had a small attendance, but devoted its time to the bill redistricting the Legislative districts. The section providing that counties having two or more Representatives must be divided into districts was agreed to.

A resolution was introduced authorizing the Commissioners of the Sinking Fund to immediately advertise for bids, as required by law, and they are hereby authorized to lease the labor of the convicts in the Frankfort Penitentiary for a term of years not exceeding ten, and that such contracts shall be made with the lessees thereof as will fully protect the rights of the State, particularly by incorporating provisions and conditions therein that such lessees shall forfeit such contract on the violation of its terms.

You will be pleased with our new system.

For the Farmer.

James R. Chaney, of Warren County, has lost \$5,000 worth of mules from an unknown disease.

James Owens, of Clark County, raised on twenty acres of land for which he paid \$20 per acre, a crop of tobacco which he sold for \$3,890.

The largest sheep ranch in the world is in the counties of Demmett and Webb, Texas. It contains upward of 400,000 acres, and yearly pastures from 1,000,000 to 1,600,000 sheep.

John W. Neal, of Robertson County, raised on two acres of old land 3,164 pounds of tobacco, and on four acres of new land 4,134 pounds and has sold it all for 10 cents per pound.

Wm. Sidwell, of Tuckahoe, sold a four-year-old brood sow last week that weighed 527½ pounds. He got \$34 for her. Since March 16, 1892, he has sold \$80 worth of pigs from her. In the four years she brought up five litters—forty-nine pigs in all.

Is your stallion worth breeding to? If so he is worth advertising and advertising thoroughly. Men who breed along the lines indicated by good judgment are already forming their plans for the spring breeding. An advertisement in THE BULLETIN will bring the merits of your horse every week before hundreds of farmers in this and surrounding counties who are within your reach. One mare secured by this means will more than pay for the advertisement. Can you afford not to advertise?

Lexington's Prosperity.

The address recently read by Professor Wilbur R. Smith upon his installation as President of the Lexington Chamber of Commerce made a fine exhibit of the commercial prosperity of that city. The total assessed valuation of property in the city is \$13,544,550, or about \$400 per capita of population. This is an increase of over \$3,000,000, or nearly 30 per cent., in four years. The horse sales at Lexington in 1892 amounted to over \$3,000,000. Ten years ago the annual sales were only \$350,000. Mule sales in 1892 reached \$600,000.

The Lexington banks have a capital of \$3,493,900, individual deposits of \$3,204,762.11 and surplus of \$767,096.56. The bank clearings for 1892 reached a total of \$26,435,873.20. The output of Lexington's flour mills has an annual value of \$600,000. The city's transactions in wheat, besides the consumption at the mills amount to \$324,000; hemp, \$450,000. The railroad business of the city is \$2,000,000 annually.

River News.

The Silver Wave has resumed.

The Stanley will pass down this evening.

The Keystone State left Pittsburg today.

Due up to-night: Bonanza for Pomeroy; Iron Queen for Pittsburg.

Captain George W. Edgington and son, Arch, will have charge of the steamer Bellevue with which they will do a general towing business.

Captain Emory Edgington will have command of the Maysville and Augusta packet M. P. Wells this spring and Fred Edgington will have charge of the office.

Railway News.

There are 8,106 miles of main line track in Ohio, 478 miles of second track, 181 miles of branches and spur track, 2,401 miles in yards, and sidings and switches.

During 1892 4,062 miles of new railway were laid in the United States, 400 miles under the total of 1891. The total mileage is now 174,663. Washington State showed the largest amount of new railway.

An Entertainment For Old and Young.

Miss Alcott's "Little Women" has been dramatized by one of Maysville's young ladies and will be given at Washington Opera House on Friday evening, February 10. Proceeds for Central Presbyterian Church. Don't fail to see it. Tickets on sale at Nelson's hat store and at all the drug stores. Admission 25 cents; no extra charge for reserved seats.

Attention, U. R. K. of P.

All members of Maysville Division No. 6 are hereby notified to meet at armory Tuesday evening, February 7th, in full dress. Election of officers and annual inspection, and other important business. A full attendance ordered.

Persons calling for the above will please say advertised. One cent due for advertising. B. R. WILSON, P. M.

Mrs. CONARD PHISTER entertained the Matinee Club last Saturday. Hearts and crokinole were the pleasures of the afternoon, and the beautiful prizes were won by Mrs. H. K. Adamson and Mrs. Philip Kemper. A brownie luncheon closed the delightful entertainment. The guests were seated in the spacious dining room at three heart-shaped tables beautifully decorated in shades of golden brown. The name cards were dainty hearts, in which were painted artistic groupings of the quaint brownie men. The score cards, too, were heart-shaped, and the progressions were marked by one of the little figures Palmer Cox has made so famous. Every moment of the occasion was replete with pleasure and delightful surprises, with the added joy of perfect hospitality so gracefully extended by the charming hostess.

BERT GILBERT, John Wilson and Charles Russell got on a "tear" Sunday afternoon, and raised a big racket at Dora's gallery. The noise attracted a large crowd on Second street. The trio together with Dora were all run in by Chief of Police Fitzgerald and Deputies, and were taxed \$4.25 each in the Mayor's Court this morning.

REV. J. H. YOUNG, D. D., closed the revival at Hopkinsville with over one hundred additions to the M. E. Church, South. Rev. Sam Jones sowed the seed a few weeks ago, and the churches are now doing the reaping.

A HARD WINTER

Has This Been on the Poor—Provisions Scarce and Prices "Out of Sight."

Noting the scarcity of eggs the Cincinnati Enquirer says: "Not for twenty years has the succulent hen fruit been so high. The price of eggs at wholesale is thirty-eight cents a dozen, and some who purchase them at retail have to pay as much as forty-five cents a dozen. Until there is warmer weather the egg famine is likely to continue.

"Not only are eggs very scarce and dear, but all kinds of provisions have soared away beyond the reach of the pocket-book of the house-wife of modest means. Even canned vegetables are about 20 per cent. higher than last year, and prime meats have also had a large advance. The excessive cost of meat and provisions is very hard on the poor, many of whom are compelled to subsist on bread and coffee, without butter which is forty cents a pound.

"It is said by those in a position to know that this is the hardest winter the poor have known for a quarter of a century. Thousands of them are hoping and praying for an early spring."

In Maysville a year ago, apples were fifteen to twenty-five cents a peck; now they are fifty cents, and few to be had at that. Irish potatoes were sixty to eighty cents a bushel; now they are \$1 a bushel. Onions were forty cents a peck; they are fifty now. Lard was eight and nine cents a pound; now it is twelve and a half to fifteen. Butter was fifteen to twenty cents; it is quoted at twenty-five now. Bacon is quoted from three to four cents a pound higher now than a year ago, and so on through the list.

You will be pleased with our new system.

The Cincinnati Tribune thinks "the backbone of winter is only a little strained."

"SEVENTEEN marriage licenses were issued by the County Clerk during the month of January," says the Public Ledger. Count again. There were twenty issued, just as the BULLETIN stated several days ago.

An exchange says: "The 'Woman's Democratic Club' of Rock Springs in the State of Wyoming, where the women vote, has indorsed the handsomest saloon-keeper in the town for United States Marshal under the coming reform administration."

MR. AND MRS. P. LUZI have returned from Detroit. Mr. Luzi has bought the restaurant on Market street conducted for some time by Mr. George Eitel and took possession this morning. He is an experienced caterer, and will be glad to welcome his old patrons and the public generally.

A SPECIAL from Anderson, Ind., February 4, said: "A most marvelous piece of surgery was performed here last night by Dr. Hodges. Mrs. George Harlan, who was about to become a mother, died, and the unborn child, alive and well, was brought into the world nearly one hour after the mother's death. It is believed to be the only case of the kind on record."

JAMES E. SCRIPPS, who is the principal owner of the Cincinnati Post and several other papers, has just completed Trinity Reformed Episcopal Church in Detroit, entirely at his own expense, and it cost him not less than \$100,000. He gave \$75,000 toward the Detroit Museum of Art, and it is said he has in hand other public benefactions in the nature of parks and various institutions.

The remains of Miss Maggie Smith will be brought here from Covington on the morning train Tuesday and taken direct from the depot to Washington for interment. She died at Covington during the extremely cold spell about three weeks ago, and her remains were placed in a vault until the weather moderated. Deceased was a niece of Rev. Father Smith, formerly of this city. Part of her life was spent in Maysville.

"LITTLE WOMEN" is one of the most delightful books ever written for young people; indeed so beautifully expressed, so capably drawn is the story, it appeals to old as well as young. As arranged for the stage by Miss Wood, it retains its charming situations, has all its beauty clearly shown, and is replete with the cream of its composition. All the characters in "Little Women" are good and noble as drawn by Miss Alcott; how much more entertaining then will be Miss Wood's version, as given with living characters, pretty, fascinating girls, handsome youth. Certainly a treat is in store for our people. Not content with giving value received the "Willing Workers" have gone out of their way to please. A quartette of male voices will render several beautiful selections between the acts, and two young ladies will sing a comic duet. The manager of the street cars will have cars running ooth ways for the accommodation of the patrons to "Little Women."

MRS. WHITNEY DEAD.

Wife of the Ex-Secretary of the Navy.

EX-SENATOR PAYNE'S DAUGHTER

Heart Disease Was the Immediate Cause of Her Death Which Came Very Unexpectedly. Only Mr. Whitney and the Nurse Being at the Bedside at the Time. Arrangements for the Funeral.

NEW YORK, Feb. 6.—Mrs. William C. Whitney, wife of the ex-secretary of the navy and daughter of ex-Senator Payne, of Ohio, died at her home, 2 West Fifty-seventh street, at 3 o'clock Sunday morning, of heart disease. Only Mr. Whitney and the nurse who attended her during her illness were present at the deathbed, the end coming unexpectedly. Dr. J. Wood McLane, who, with Dr. Charles McBurney had been attending Mrs. Whitney, left her at half past 11 o'clock Saturday night, Dr. McBurney having left several hours sooner. When Dr. McLane departed it was for the night, as at that hour it was expected that Mrs. Whitney's illness would not take a serious turn before morning.

Mr. Whitney sat up until 2 o'clock, at which hour he retired to his bed and the house was darkened. A few minutes before 3 o'clock one of the nurses hastily summoned him, and he hurried to Mrs. Whitney's room, reaching it just in time to see her expire. So unexpectedly did death come there was not even time to summon her father, brother and sister, who were in the house, having been called there when Mrs. Whitney's condition first appeared serious. They reached the bedside a few minutes after her death.

MRS. WILLIAM C. WHITNEY.

The death of Mrs. Whitney awakened widespread sympathy throughout the country, and all day telegrams and messages of condolence were received by the family. Although these messages of condolence were kept strictly private, it is said by friends of the family that among the first telegrams to arrive were those from President-elect and Mrs. Cleveland, Sir Julian Pauncefote, the British minister at Washington, and representatives of other foreign legations also sent messages. Telegrams were also received from a number of senators and congressmen, from Mr. Whitney's colleagues in Mr. Cleveland's cabinet and from the members of Mr. Harrison's cabinet. Many of the immediate friends of the family called during the day.

For years Mrs. Whitney has evinced symptoms of heart trouble. Slight attacks of illness from this cause has frequently startled her and occasioned her family great anxiety. For three weeks the patient had been guarded from disturbing influences and almost entirely confined to her bed. The night before the attack that was the beginning of her last illness, Mrs. Whitney gave one of the dinner dances that are the fashionable fad of the present season. She was in a weak condition at the time and the excitement and the strain consequent to the entertainment of her large party is supposed to have superinduced the attack.

The funeral will take place at 10 o'clock Tuesday forenoon from St. Bartholomew's church, Madison avenue. The services will be conducted by the Rev. Dr. David H. Greer. The interment will be at Woodlawn cemetery where the daughter, who died abroad in 1893, is buried.

Colonel Daniel S. Lamont, Mr. Whitney's intimate friend, has charge of the funeral arrangements. He says the funeral will be as quiet as possible.

Among the telegrams of condolence received were these from Secretary and Mrs. Elkins, Chief Justice Fuller, ex-Secretary T. F. Bayard, ex-Postmaster General Don M. Dickinson and many other well known public men. Mr. and Mrs. Grover Cleveland telegraphed that they would come from Lakewood to attend the funeral. Among the first to call and leave cards at the house were the Vanderbilts, the Webbs, Chauncey M. Depew and others equally well known in New York.

Mrs. Whitney fully deserved the name of social leader. She was not surpassed by any, and the social functions over which she has for several seasons presided as hostess have been numerous and various. Upon these occasions her characteristics have been unexcelled in dignity and grace, charming self-possession and the rarer qualities of kindness of spirit and genuine hospitality.

While her life and name were to a remarkable degree linked with political, official and financial, as well as social greatness, she counted her friends in many classes, and her undemonstrative generosity won the gratitude of those who have met her. As is well known one of her closest intimates was Mrs. Cleveland, wife of the ex-president and president-elect of the United States.

Although only on the threshold of the forties, Mrs. Whitney's hair was prematurely white. Her face retained a great measure of the youthful freshness and sweetness that characterized it when she was married to Mr. Whitney, then a hard-working lawyer of modest income and scarcely any means, a score of years ago.

The friendship of the Cleverlands and

the Whitneys has never abated since it was first firmly fixed. In her illness Mrs. Whitney's welfare occasioned no more earnest solicitude outside of those to whom she was bound by kinship than Mr. and Mrs. Grover Cleveland.

GEORGE FORREST'S MISFORTUNE.

White Drunk He Killed a Man and is Sentenced to Five Years' Imprisonment.

MEMPHIS, Feb. 6.—George Forrest, a nephew of the great Confederate cavalryman, General Bedford Forrest, was convicted here Saturday of involuntary manslaughter and the punishment fixed at five years in the penitentiary. A motion for a new trial was made, pending the argument, and Forrest was released on \$3,000 bail.

On Sept. 13, Forrest, while crazy drunk, shot and killed Lee Drake, a highly respected young business man, in the store of Root, Taylor & Company, where Duke was employed. Forrest had nothing against Duke, and it is thought that in his drunken condition he mistook him for Captain J. R. Taylor, of the firm, with whom he had some words earlier in the day. Forrest claimed to have been so drunk as to have no recollection of the occurrence afterwards.

MINISTER IMPOSED UPON.

He Announces from the Pulpit That War Has Been Declared Against England.

NEW YORK, Feb. 6.—The Rev. Mr. Kent, pastor of the Lewis avenue Congregational church, Brooklyn, created a sensation yesterday by announcing that war had been declared with England. He added that he had received authentic information from Washington that President Harrison had issued a call for 12,000 volunteers, and that he had heard that the cruiser Boston had been sunk in Honolulu harbor.

After the services the congregation gathered on the street and discussed the information given out by their pastor. It was some time before they found that the whole thing was a hoax and that the pastor had been imposed upon.

Four Men Slain by Indians.

HOT SPRINGS, S. D., Feb. 6.—Four men, George Hadaway, Bennett, Rodney Royce and Ed Cochran, herders, belonging to the Stingers & Humphrey's outfit, were found dead in their cabin near the mouth of White Clay creek Friday, having been murdered by the Indians.

Overdose of Morphine.

LINCOLN, Neb., Feb. 6.—William H. Dech, late Populist candidate for congress in the Fourth district, took an overdose of morphine Friday night. Some claim it was with suicidal intent, though his friends deny this. Doctors think he will recover. The theory of suicide is due to the fact that he left a note to his son, intimating that he might be found dead.

We positively have the best business to offer an agent that can be found on the face of this earth. \$45.00 profit on \$75.00 worth of business is being easily and honorably made by and paid to hundreds of men, women, boys, and girls in our employ. You can make money faster at work for us than you have any idea of. The business is so easy to learn, and instructions so simple and plain, that all succeed from the start. Those who take hold of the business reap the advantage that arises from the sound reputation of one of the oldest, most successful, and largest publishing houses in America. Secure for yourself the profits that the business so readily and handsomely yields. All beginners succeed grandly, and more than realize their greatest expectations. Those who try it and exactly as we tell them. There is plenty of room for a few more workers, and we urge them to begin at once. If you are already employed, but have a few spare moments, and wish to use them to advantage, then write us at once (for this is your grand opportunity), and receive full particulars by return mail. What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHLOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
